The development of food production in cities has raised some important questions about the governance of these activities and the role of city-regions. In this paper through four European case studies- Bristol (UK), Ghent (Belgium), Vigo (Spain), and Zurich (Switzerland) -we consider the ways in which food is governed at the city level. Our case studies demonstrate the role played by ...

China - China - Urban areas: Urbanization and industrialization often have been closely related in China. The first major post-1949 urbanization push began in the mid-1950s, as the government intensified its efforts to convert the country into an industrial power. Urban growth accelerated even more rapidly from the mid-1980s, with China's serious entry onto the global economic stage.

China - Urban areas | Britannica

The territorial impact of the health crisis COVID-19, like all pandemics, has a spatial dimension that needs to be managed (McCoy, 2020[5]). As of mid-2020, it is clear that the impact of the COVID-19 crisis may differ markedly not only across countries, but also across regions and municipalities within countries, both in terms of declared cases and related deaths.

The territorial impact of COVID-19: Managing the crisis ...

An urban area, or built-up area, is a human settlement with a high population density and infrastructure of built environment. Urban areas are created through urbanization and are categorized by urban morphology as cities, towns, conurbations or suburbs. In urbanism, the term contrasts to rural areas such as villages and hamlets; in urban sociology or urban anthropology it contrasts with natural ...
