At Living Planet we believe that organic, whole foods are healthier for you and the planet. Organic agriculture protects and conserves our natural resources and ensures that animal products are obtained humanely from healthy, happy animals. We strive to preserve biodiversity, eliminate harmful chemicals and soil erosion.

Living Planet

Eat well, live better. When Planet Organic opened its doors in 1995, it was Renée Elliott's dream to offer the best and widest range of organic foods available, and her mission to promote health in the community and to bring a sense of discovery and adventure into food shopping. We hope that you find inspiration, excitement and good health from the food you eat, and learn, like us, that to eat well is to live better.

“Organic farmers and consumers believe that the organic label means not just growing food in soil, but improving the fertility of that soil,” he says. That hydroponically-grown crops can be called organic would be a huge financial blow to soil-based organic farmers, because hydroponics can grow a lot of vegetables more cheaply.
