### The Lost World: Jurassic Park (Film) - TV Tropes

The Bone Wars, also known as the Great Dinosaur Rush, was a period of intense and ruthlessly competitive fossil hunting and discovery during the Gilded Age of American history, marked by a heated rivalry between Edward Drinker Cope (of the Academy of Natural Sciences of Philadelphia) and Othniel Charles Marsh (of the Peabody Museum of Natural History at Yale).

### Bone Wars - Wikipedia

The heaviest and longest dinosaur may have been Maraapunisaurus, known only from a now lost partial vertebral neural arch described in 1878. Extrapolating from the illustration of this bone, the animal may have been 58 meters (190 ft) long and weighed 122 400 kg (270 000 lb).

### Dinosaur - Wikipedia

Hi there! I am wondering if there is a way I could attach an item to the end of the saber (not motion tracking). In my instance, I am attaching a small orb to the front end of a saber effect; the effect uses the offsets to create a "light beam" along OTHER saber masks...think Tron objects, and then sometimes "overcharges" pulse along the glowing lines of the object).
