In The Roots of Ethnicity, Ronald R. Atkinson argues that although colonial rule and its aftermath have played a major role in shaping the particular manifestations of ethnicity in Africa, many sociohistorical developments crucial to current expressions of ethnicity can be traced to a past long before the colonial period. Atkinson develops his argument through an exhaustive examination of the origins of the collective identity of the Acholi of present-day northern Uganda.

But the reason why people so often fight so fiercely about race and ethnicity has genetic roots that are universal to our species. And race is just one of approximately a million and one ways to express that larger inborn tendency. That is where nationalism comes from—human nature's in-group-out-group instinct.
