The Steel Guitar In Early

The first electric lap steel was invented in 1931 by George Beauchamp. It was called the "frying pan" guitar because of its shape. It was played flat on the knees while sitting down, and in the Hawaiian style, with a bar. Throughout the thirties, others produced lap steels and the designs further evolved.

The History of the Steel Guitar

In the early twentieth century, steel guitar playing branched off into two streams: lap-style, performed on an instrument specifically designed or modified to be played on the performer's lap; and bottleneck-style, performed on a traditional Spanish guitar held flat against the body. The bottleneck-style became associated with blues and rock music, and the horizontal style became associated ...
